How to use this list

Closest structural matches: The House, SOCO, Northwest, Reach, Grace Point, Grace Hills, The Summit and New Hope all combine multiple Sunday services with visible group ministries.

Size caution: Fellowship, Keypoint, First Baptist Rogers and Cross Church are useful outreach prospects but public information suggests they may be larger than the original under-1,000 target. They are clearly marked rather than silently excluded.

For outreach: Reach, Grace Hills, The Summit and New Hope may be especially useful to call first when a true midsize congregation is important.

Note: Church membership and weekly attendance are often not publicly reported. Entries are screening candidates based on service structure, group ministry, campus profile and public information. Confirm current attendance/membership directly with the church before using a strict under-1,000 cutoff.
